Summery

Detail-oriented individual with a solid foundation in software development. Skilled in C, C++, and web development. Capable of turning real-world needs into practical software solutions. Comfortable working in teams and communicating effectively. Seeking an entry-level role in a software development team.

Education

Hooghly Engineering and Technology College

09/2022 - Present

BTech in Computer Science and Engineering • CGPA: **8.67**/ 10

- Among the top 5% of the batch.
- Relevant coursework: Object Oriented Programming, Operating System, Data Structure & Algorithm, Database Management System.

Skills

Frontend: Next.js • React.js • HTML • CSS • JavaScript • Tailwind CSS

Backend: Node.js • Express.js

Databases: MongoDB • MySQL

Programming Languages: C • C++ • Java (basic) • Python

Libraries & Tools: NumPy

Experience

NirveonX

Full Stack Software Developer Intern

[Remote]

20/04/2025 - 20/07/2025

- Worked in a team of 6 to develop full-stack applications using Next.js and Tailwind CSS.
- Built interactive web-based games like Echo Match and Bloom the Buds to improve user engagement.
- Designed and developed multiple responsive UIs for NirveonX's healthcare-focused platform.
- Contributed to frontend enhancements with a focus on usability, accessibility, and performance.

Projects

Eduprobe - An Ultimate Quiz Application

Tech Stack: Next.js, Tailwind CSS, MongoDB, Gemini Ai API

- Built a full-featured quiz platform where users can attend live quizzes, practice quizzes, generate instant AI-powered quizzes, scheduled contests and can challenge with others.
- Integrated Gemini AI for dynamic question generation and evaluation.
- Implemented real-time timers, answer review, scoring features and leaderboards with intuitive UI.

JobEchoAI - An AI-driven Mock Interview Platform

Tech Stack - Next.js • Tailwind CSS • PostgreSQL • Gemini AI • Pdf.js

- Built a platform that simulates personalized, role-specific mock interviews with 90%+ accuracy in resume parsing.
- Integrated Gemini AI to generate dynamic, role-specific interview questions and feedback. Designed auto-scoring logic and optimized backend for performance.

Key Achievements

- Winner - *CodeConquer* by *CodeCharcha* (2025) - Built JobEchoAI
- 2nd Place - *Phantom Hack* by *Catoff & GDG-HETC* (2024) - Designed a spooky static website with creative UI
